PROJECTS

Dinners of Desire / Project

- Develop a solution to the problem of decongesting canteens through a food ordering application that will help canteen caterers manage the limited seating problem.
- It includes features such as food ordering, advance booking, food waste prevention, token number generation, and receiving notifications.

MeDonate - Donate Medicines, Save Lives / Project

- Designed and developed a website that enables users to donate medicine to help the underprivileged and needy individuals from the comfort of their homes.
- The website offers a user-friendly platform for easy donations with just a few clicks.

ACHIEVEMENTS

- Ranked 6th out of 25 teams in UBS Hackathon Conducted at MKSSS' Cummins College of Engineering, Pune.
- Ranked 8th out of 34 teams in Ingenuity Ideathon conducted by UPTIQ at VIT, Pune.
- 5-star rating in C++ on Hacker Rank.
- Achieved an All Maharashtra Rank of 2394(98.3143 %ile) and placed in the top 1% in MHT-CET 2021.
